Balance Scales

## Soundbeam

**Portable music system enables music to detect body movement without physical contact**

Soundbeam is a fun packed unique no contact movement sound device which enables clients regardless of physical or cognitive disability to experiment and communicate with sound by moving within an invisible elastic keyboard in space. Even the blinking of an eye can produce notes, dramatic chords or sound effects. Simple controls allow the operating length of the beam between (300mm and 6m) to be tailored to the mobility level of the individual user.

## Sensory Kits/Tubs/Bags/Boxes

We have a varied selection of bags, boxes, kits and tubs. All have a different selection of sensory items for auditory, visual, massage, uv and tactile purposes. Each kit contains a varied selection of stimulation equipment. All these products will encourage movement, hand-eye co-ordination, vocalisation, tracking skills and visual attention. The equipment will also help communication skills, develop sensory awareness and promote relaxation.

## Sensory Trails

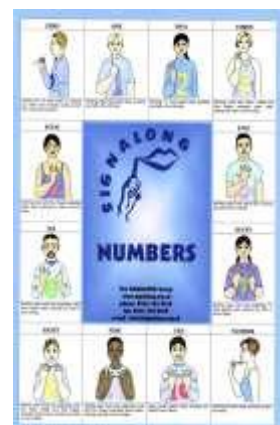

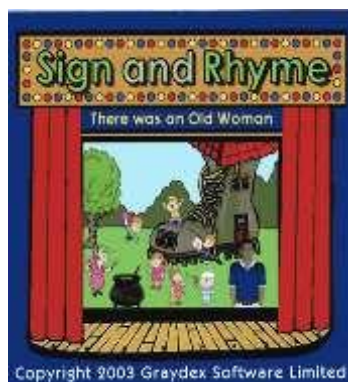

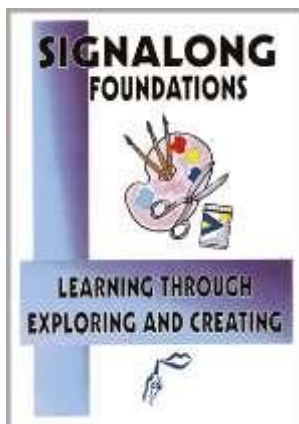

Motion Trail  
Reflector Trail  
Feely Sensory Trail

## Signalong

Signalong is a sign-supporting system based on British Sign Language, designed to help children and adults with communication difficulties. Signalong empowers children and adults with impaired communication to understand and express their needs and choices by providing vocabulary for life by learning to overcome difficulties and reach their full potential.

## Therapy Resources

- A Box Full of Feelings is designed to support the social and emotional development of children and is built around the four basic feelings of happy, sad, angry and afraid. It contains masses of activities that will involve children all year round.
- The box includes: • 48 situational pictures (11 x 11cm) - each basic feeling has 12 pictures, with a short story and questions on the reverse • 16 pictures of the emotion figures (11 x 11cm) • 4 posters with emotion figures (42 x 29.5cm) • 17 finger dolls • 4 carry-around houses of emotions • 4 masks depicting each feeling for children or adults to wear • A wheel of emotions with spinner (for games) • CD of emotive music • Instruction manual including photocopiable activities • Sturdy storage box with carry handle.
- A Wibble Called Bipley (and a few Honks) (a storybook for troubled children)
- A Niffleloo Called Nevermind (a storybook for helping children with their feelings)
- Emotional Well Being for Children with Special Educational Needs and Disabilities
- Learning Together—a creative approach to learning for children with multiple disabilities and a visual impairment
- Creative Play with Children at Risk (photocopiable worksheets and story sheets)
- Creative Storytelling with Children at Risk (photocopiable worksheets and story sheets)
- Emotional Literacy Indicator For Early Years (everything you need to assess the emotional literacy of young children)

## Toys & Games

Various Puzzles  
Activity Clock  
Tool Box  
Body Game  
Days of the Week  
Characters

## TAC PAC

Various TAC PAC sets.

Tac Pac is a Sensory Activity Pack that combines touch and music to help with communication, social and emotional development. Each Tac Pac sessions lasts approximately 30 minutes and consist of six experiences in sequence—always ending with relaxing music. For each session, you will need a CD Player, a Tac Pac Set and a quiet area where there will be no interruptions.

Tac Pac is used by infants, children, parents, portage workers, therapists, carers and health professionals.
